

Introduction to Cost Effective Implants

This course provides a clear guide with steps required for restoring implants from start to finish.

From initial patient consultation about implant options, through to final placement of the implant restoration.

Course overview

Learning Objectives

Learn how to restore implants, from the basics, through to the intermediate skills required.

This provides the Dentist with the knowledge and confidence to get started with this restorative solution for their patients. Furthermore we will be looking at more challenging cases and how to avoid the complications that may arise.

Learning Outcomes

This course will enable you to:

Plan your first case, choose a specialist & laboratory to work with, and offer your patients the appropriate implant solution for the indication.

You will be able to assess which implant solution is more cost effective than others. You will be able to identify components without needing a catalogue.

Plus, we will provide a method for continually increasing your knowledge, enabling you to understand the continuing advancements within the implant solutions available.

Whether its a single implant or a multiple bridge implant case, you will feel confident to move forward with your chosen implant team.

COMPLETE AND RETURN THE FORM ON REVERSE TO REGISTER FOR THESE EVENINGS.

Presenter
Dr Karen Harris BDS,
ISCD International
CEREC Trainer,
Fellow International
Congress of Implantologists

Dr Karen Harris graduated from Otago in 1980 and bought her Wellington based dental practice in her last month before finishing dental school. After 29 years she sold her practice and moved to Auckland, where she established City Dental Lounge in the Auckland CBD. Dr Harris focuses on using the latest technology, methods & materials to provide ideal cosmetic and functional solutions for her patients. She combines 3D cone beam technology with digital scanning to deliver an extremely high level of service. Alongside her general & cosmetic dental focus, Dr Harris is able to provide added services such as comprehensive orthodontics, implants & endodontic options. In the last twelve years, Dr Harris has presented and trained many dentists at numerous New Zealand and International meetings including Sydney, Coolum, Greece & Berlin.
