

Efficient. Predictable. Guiding Perfection

Implant Surgical Guide

Introducing a complete guided solution in implantology, **Precision Implant Surgical Guide** (CBCT Guided) combines all elements of guided implant surgery within the one, user-friendly system. Optimising implant positioning through better planning and reducing the need for angulated screws.

Take advantage of simplified imaging methods, higher accuracy and improved patient satisfaction.

What you receive:

- Treatment Plan
- Surgical Report
- Guide Fabrication
- Titanium Sleeves
